Want to Achieve Perfect Presentation Every Time ?

**YOU NEED
Quash[®] - Lipstick Remover**

From Keg To Glass

PROTON GROUP
Your formula for total hygiene

Dirty glasses leave a poor impression of your business, not to mention the drain on your profits through replacement drinks.

Quash® is a patented system for the pre-treatment of glassware which removes lipstick, food grease and residues which glasswash machines can leave behind.

Manufactured by The Proton Group, it is used and recommended by international brewers, market-leading brands, major and independent pub operators.

Research has found that 40% of pub glassware is dirty

Source: Cask Marque

What are the benefits of using **Quash®**?

- ✓ Saves time and money
- ✓ Reduces the number of returned drinks
- ✓ Reduces the number of customer complaints
- ✓ Prevents breakages caused by the use of cleaning cloths
- ✓ Quick and simple to use as its free standing and non-electrical

PROTON GROUP
Your formula for total hygiene

You can use Quash® on all types of glass – From Pint to Cocktail

Directions for use

01

Before use remove all waste and debris from glass i.e; lemons, dregs

02

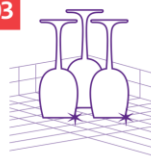

Turn glass upside down and press gently into foam pad, twist glass left then right

Use all foam pad not just the centre

For stubborn stains repeat procedure

03

Place glass in rack ready for normal glass washing

Please remember!

Clean applicator and foam pad daily

Do not use chipped, cracked or broken glasses

Never wipe the glass with a tea towel

Only use the 'Quash' Concentrate' provided

The foam pad should be discarded and replaced with a new one every 500ml of 'Quash' Concentrate'

Always pour 50ml x 6 of water onto the foam pad followed by 50ml x 1 of 'Quash' Concentrate'

Quash® is available to order in 3 different packs.

- **Intro Pack**
Includes: Applicator, Sponge, 500ml Concentrate and a measuring cup.
- **Refill Pack**
